Source: U.S. Census Bureau, 2015-2019 American Community Survey 5-Year Estimates

Except where noted, 'race' refers to people reporting only one race. 'Hispanic' refers to an ethnic category; Hispanics may be of any race.

A 'Z' entry in the estimate or margin of error column indicates that the estimate or margin of error is not applicable or not available.

*An '***' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.*

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of

An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.

An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.

*An '****' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution.*

A statistical test is not appropriate.

An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.

An '(X)' means that the estimate is not applicable or not available.

Some tribal areas may not return data. These areas are recognized and surveyed, but do not have residents/population, and subsequently, no demographic information are available.
